

Transformational Enterprises, Inc.

Background

Our original goal was to empower transformation through teaching tools. Our products are distinctive with a consistently high level of quality. Though our content is timeless, we deliver it in the most current ways - whenever, wherever and however our customers need and want it.

We started as a seminar company and then began offering supplemental products that complemented the transformation our clients were experiencing. For example, Maureen began offering a workshop titled "The Inner Child." This was an evening workshop held on the free evening of a 2-½ day workshop. It began because the participants wanted to spend more time with Maureen. Offered at no charge to all in attendance at the day workshop, this event was extremely popular. She closed it each night with a guided meditation to the Archangels.

Immediately, the participants asked for a copy of the Angel Meditation. She continued to present this guided meditation, live, 22 times, every Saturday night from January to July excluding Easter and Mothers Day weekend. At the end of that cycle, Maureen had orders for over 50 CDs, and the first guided meditation to the Archangels was recorded. Available worldwide it continues to be one of our best sellers. Here are some comments about it from listeners:

"I received the Angel CD. It is wonderful. I think you have almost outdone yourself. I say almost, because I'm sure there is more in store for you. The description of the angels is very accurate and the meditation you do for each one is beautiful. The music you wrote is very restful and relaxing. And, of course, you have the perfect recording voice. A job well done!" Linda Gerhart, Las Vegas, NV

"Maureen, your Angel CD is extraordinary... Good graphics also. Your voice presence is outstanding. Received it yesterday, played it last night... Beautiful. I am so impressed!!!" Love, Kathy de Fouchier, Paris

"Dear Maureen, I played your Angel CD for the healing group that meets weekly at my house and many of them want a copy. Am also doing an angel talk in early Dec and planning on using it there. Could you bring lots of copies for me to sell? I so look forward to seeing you again." Blessings, Marie Anderson-Whitehurst, Greensboro, NC

"Dear Maureen, Re: Your angel CD - Graphics are great! Background music is very cool! Your voice however, is the best... Now I wonder how come I never heard of most of the angels, especially Metatron. It is a wonderful meditation and I thank you for including me in your circle of early release." Chris McDonough, Tucson, AZ

"Dear Maureen, Today was the first day I really got a chance to listen to 'Angels.' I woke up this morning with fear permeating me, and all my 'being with it and loving it' was not transforming it. I ate some breakfast and your Angels CD came up to be played on my CD carousel. I sat down and meditated with it. I was transformed. I loved, I cried, I released and transformed my fear. I felt at peace. Bless you. Thanks. I will be ordering some more soon as Christmas gifts." Light, Life & Love, Billii Roberti, Editor, Healing Journal, Huntington, NY, owner of I Am Books, Huntington, NY

"Your Rainbow Angel CD has been the springboard for some important spiritual growth for me. In the work I do it is easy to get overwhelmed...meditating and asking for the angels presence really helps." Ginny (Senior Coordinator for a hospice and palliative care facility)

"Dear Maureen, I thank you for the beautiful gifts you have brought into my life - the Flower of Life Workshop and the most beautiful and powerful Meditation to the Archangels CD. May your seedlings continue to grow into a beautiful garden of flowers in this new year of change and discovery as you bring love, light and hope to a planet in great transition." Love & Light, Pat

"Dear Maureen, Yes, I have received the CDs and I wanted to work with them for a bit so that I could share my experience with you. The CDs are very powerful and, at the same time, very soothing and healing. I am feeling subtle shifts in my energy patterns as I ask for assistance from the various Archangels. This CD is truly uplifting and empowering. You have provided a very powerful and transformative meditation tool to humanity. I will continue to share the CD with others and spread the word as well. Many people need to know about this powerful CD." Patrice Zorn, Milwaukee, WI

Networking

Maureen's extensive travel schedule puts her in contact with many unique and talented individuals. She is often able to connect individuals with other professionals who will meet their needs. She began working with artists, healers, intuitives, and makers of fine spiritual jewelry. All support the goals of TEI and make a difference in the lives of our customers.

TEI Vision

Transformational Enterprises, Inc. is the leading company devoted to esoterically enriching the changing lives of today's men and women and their families. Our goal is to provide tools for transformation to both

individuals and corporations. We are devoted to enriching lives and assisting our clients to achieve rapid growth and overall success. Our community of how-to-experts is committed to teaching, innovating, designing and inspiring our customers with ideas and products that make every day more meaningful, inspiring and happier.

We elevate the familiar elements of daily life and infuse them with pleasure and happiness. We encourage our customers to connect with the inner guru and realize a spiritual sensitivity to all life that provides a sense of transformation through self-mastery and self-discovery.

Our products and style are distinctive with a consistently high level of quality. Maureen St. Germain and Transformational Enterprises empower transformation.

We bring together 15 years of industry experience, innovation, technology and spiritual training and teaching.

We see ourselves as an event-driven company. We respond to the needs of our customers; they help us determine the next wave of products and services. We rely on feedback from our best customers to help direct the future of what we, as a company, will offer.

As a girl growing up on a large vegetable farm in the Midwest, TEI's founder, Maureen St. Germain, learned to prepare meals from scratch. This type of improvisation and training early on, set the foundation for a lifelong philosophy that transferred quite easily to leadership skills in the corporate world and then later as President of TEI. Based on the success of Maureen's beliefs and skills, Transformational Enterprises intends to become the Betty Crocker of human transformation, self-improvement and self-empowerment!

For instance, it is common to purchase a brownie mix to make brownies instead of making them from scratch. Likewise, TEI provides the right meditation CD for customers to create the basis for inner growth and enlightenment.

Maureen sees a direct correlation between ready-to-make cake mixes and ready-to-play meditation CDs. Today's consumer wants and demands more from themselves and their spiritual growth. They are constantly looking for new ways to transform, and because we are faced with the decline of organized religions there is a growing need for personal growth at the evolutionary level and transformation on an individual basis.

Mission Statement

The mission of Transformational Enterprises, Inc. is to assist individuals and companies in developing whole-brain thinking by providing them with the best tools and training to transform quickly and easily, to reach new paradigms, and to evolve new ways of being.

Business Philosophy

We will base our business on honesty and integrity.

Our organization desires to assist our clients through rapid transformation utilizing tools developed purposely for their needs. We understand that knowledge is going through rapid growth of information technology, and our desire is to assist the individual to evolve the human spirit to keep up with this rapid transformation.

Currently, our products and services are successfully marketed to individuals through retail stores, trade shows and on line merchants. Transformation is an innovative industry. Some have named it the New Age. This industry is new to the corporate world relatively speaking. There is a growing interest in personal spirituality and personal transformation.

TEI was formed from the founder's sincere desire to make a difference in the lives of many who were facing rapid change. She was a product of downsizing herself and understands the mushrooming tide of change that society is moving through due to massive changes in civilization at all levels.

A recent title article in Fortune magazine reads, "Fifty and Fired is bad enough. But now out-of-work execs are facing a permanent vacation. How to tell if your career is at risk." Among other things, the article details the statistics of the rising number of individuals, over 50, who are eased out of a high paying job. The answer is "retool." And for most over 50, it's as much an emotional shift as it is a mental and physical change. TEI can assist in that transformation.

Life in the 21st century is remarkably dissimilar to 100 years ago. As the "Betty Crocker" of transformation, TEI seeks to provide our clients with tools to transform quickly and easily. As a young homemaker, TEI's founder made all her family's food from scratch; that is she made bread, cakes and pies without a box mix. Today's homemaker rarely bakes from scratch, instead relying on completely prepared foods or mixes where all that is required is to add an ingredient or two. Similarly, TEI is able to identify ways to assist rapid transformation serving our clients' needs. TEI is primarily a teaching company providing support, training, materials and networking for transition to new modes of conducting business and experiencing life.
